Delighting You Always

Coating & Production Technology

Advanced coating technology, special coating formula and professional production and a mature inspection team – full line quality controls including raw material inspection, production process inspection, and finished product inspection throughout the entire supply chain.

Fantac means Quality

Fantac offers global solutions that meet Kodak's quality standards and regional market needs. Starting in 2009, Fantac has been an approved small format supplier of Kodak licensed inkjet products.

Fantac also produces a full range of products for print-for-pay, professional photography, fine art reproduction, sign, in-house corporate graphics, point of purchase, advertising, exhibit and proofing markets.

Advanced Technology, Kodak Quality and Chinese Cost-Effectiveness

A worldwide sales company

Cooperative Partners

Advantages & Core Competitiveness

01

We are not only a paper manufacturer, but a life solution provider

The essence of our business is not to focus on consumers but to help people improve their lives through product innovation.

02

Thirty years of dedicate focus on development of new materials and application solutions, flexible production capabilities, and digital transaction docking capabilities.

OEM production capacity and experience for several world famous brands

03

We have developed one of the world's top color management and print technology systems.

Museum collection grade standard, 2.3DMAX extreme value, 16BIT bit depth, 4800DPI
